Summary

Junior Ruby on Rails Developer with experience in testing/debugging and developing user-friendly interfaces. A creative thinker with analytical problem-solving skills and the ability to learn new technologies quickly. Looking for a position that allows me to continue my growth as a developer through mentorship.

Technical Skills

- Ruby/Rails, Active Record
- API development
- Git
- PHP
- SQL, MongoDB
- JavaScript/jQuery, HTML5, CSS, Bootstrap, Sass, Bourbon
- Python/Django
- Clojure
- PHP

Experience

Communicant: Ruby on Rails Developer 2015

- Used Agile methodology to lead a development team in order to build a complete, open source application, providing a safe and effective way for divorcing parents to communicate.
- Applied knowledge of Ruby/Rails, Git, TDD, jQuery, APIs, ERDs, and PostgreSQL.

Hacix, Inc.: Junior PHP developer 2010-2015

- Tested and developed software using PHP.
- Learned and applied knowledge of beginning front-end design.
- Learned and applied knowledge of Python/Django/MySQL/JavaScript.
- Wrote and edited technical documentation for new projects involving networks/routers and mobile applications.
- Held starting position as administrative assistant, where I handled remote technical support duties for contracted projects.

OneNews: Software Tester 2010-2011

- In charge of software testing and light debugging using PHP.
- Helped to maintain technical documents, and update as needed for the development team.
